

## CONFERENCE CONTINUED

President Elliott of New Haven Meets Department Officials

BUT NO AGREEMENT HAS BEEN REACHED

Further Conference to Be Held Saturday—Elliott Consults Directors

Washington, Jan. 9.—After another conference with the attorney general, chairman Elliott of the New Haven road left for New York to meet the directors. He still is hopeful that the department of justice will agree to the reorganization plans.

Chairman Elliott expects to resume the negotiations Saturday. With the announcement that the New Haven has taken steps to bring the question of retaining its steamship lines before the interstate commerce commission, it is said one difficulty has been removed from the negotiators' path.

Mr. Elliott, before he entered the conference, would not predict when a settlement might be reached. "We're ready," he said.

The points that are troubling department officials were understood yesterday to involve the separation of the New Haven from the Fall River line of steamships and the disposition of the interstate and intrastate traffic in New England controlled by the railroad.

The only announcement after the conference was that progress had been made. It is hoped that there will be no congressional investigation of New Haven affairs, at least, until after reorganization plans have been worked out.

GUARD TELLS OF THAW.

Jerome Still Keeps Away From Hearing Before Commission.

Concord, N. H., Jan. 9.—The Thaw commission met at the home of Gen. Frank Streeter, chairman, yesterday to hear the testimony of Marshal E. P. Nute, the third member of Thaw's guard. Nute was questioned regarding Thaw's mental condition and asked if it is his belief that Thaw would be dangerous if admitted to bail.

Dr. Morton Prince, a member of the commission, was absent yesterday, having left last night for his home in Boston. Dr. Prince is believed to be suffering from erysipelas and his condition is said to be critical.

William T. Jerome sent word to the commission yesterday that he would not appear before them to-day as requested. His absence, it is believed, will mean an early termination of the commission's inquiry.

YOUNG MRS. KNOX SECLUDED.

Leaves Her Apartments in Philadelphia and Whereabouts Is Unknown.

Philadelphia, Jan. 9.—Mrs. Phillander C. Knox, Jr., the former shop girl with whom the son of the former secretary of state eloped three years ago, has disappeared from her apartments here. Following the sailing Wednesday of her husband and his mother for Bermuda, the news of her departure from the apartments which she has occupied since her husband's sudden departure from the city several weeks ago has given added weight to the stories of differences between the young pair. Mrs. Knox's furniture was moved out last Saturday, but friends, relatives and neighbors refuse to discuss her whereabouts. Mrs. Knox has retained Henry J. Scott as attorney.

DIES IN FRENCH PRISON.

Mrs. Violet Gould With Her Husband Sentenced as Murderer.

Montpelier, France, Jan. 9.—Mrs. Violet Gould, who with her husband is serving life imprisonment for the murder of Emma Levin in the summer of 1907, the crime being known as the Monte Carlo trunk mystery, died in prison here yesterday.

## A FRIEND TO THE WORKINGMAN

Five years ago I was so troubled with kidney trouble and inflammation of the bladder that I had to leave working my farm. Life looked dark to me until I heard of Dr. Kilmer's Swamp-Root through a cured friend. I tried a bottle and began to feel better at once. After using five or six bottles I felt fine and have continued to work as I had before my affliction.

I want to state that Dr. Kilmer's Swamp-Root is a kidney medicine that will cure and I owe my good work during the past five or six years to it.

Yours very truly,  
C. W. MORRIS,  
Prescott, Ark.

Subscribed and sworn to before me, this 27th day of March, 1912.

O. B. Gordon,  
Notary Public.

This is to certify that Mr. C. W. Morris has bought Swamp-Root at this store in the past.

Adam Guthrie, Jr.,  
Druggist.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

## Billiousness

Is Cured by

HOOD'S PILLS

25c.

INDIGESTION, GAS, DYSPEPSIA GONE

"Pape's Diapiesin" Fixes Sour, Bloating Stomachs and You Feel Fine in Five Minutes—Time It!

Wonder what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapiesin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary.—Adv.

## GIRL, ALL IN BLUE, FOUND DEAD IN RIVER

Of Remarkable Beauty, With Hair in Braids Reaching to Ankles—Bible in Pocket Inscribed "Ann Marie Lindberg."

New York, Jan. 9.—Much mystery surrounds the finding of the body of a handsome young woman, dressed all in blue, floating in the Harlem river yesterday. Her hat, serge suit, gloves, handkerchief, underclothes and stockings, everything she wore, was of the same color. In her pocket was found a small Swedish Bible, on the fly-leaf of which was written, "Ann Marie Lindberg, the 20th day, this month, 1907."

The body was discovered by Inspector Carson of the water department, who was on his way down town in a boat. He notified the police of Harbor B station, at 120th street and Harlem river, and Patrolman Finnegan set out in a launch to find the body and to carry it to the Harlem morgue.

The dead woman was about 30 years old, five feet two inches tall and weighed 130 pounds. She had long golden hair which reached in two braids almost to her ankles.

On the handkerchief in the pocket of her coat was an initial L and 54 cents was knotted into one corner of it. According to John Moran, keeper of the morgue, the unidentified woman had not been in the water for more than an hour. Her lungs were full of water—a sure sign, he said, that she had drowned and had not met with any foul play previously. Detectives meanwhile are searching Harlem for some clue to her identity.

CARDEN TO GO EVENTUALLY.

But British Minister to Mexico Will Not Be Moved for the Present.

London, Jan. 9.—London newspapers yesterday for the first time commented at length on the reports of Sir Lionel Carden's probable transfer from Mexico City. They agreed that the transfer has been considered but not decided upon definitely.

"No step in the Carden matter will be taken so long as the present indefinite state of affairs continues in Mexico," says The Post.

Reuters' news agency says: "We are authoritatively informed that whatever service transfer may be made there is no intention of Sir Lionel Carden leaving Mexico City in the immediate future, meaning within the next few months. Also there has been no question of his recall."

CRUSHING HAYTIAN REVOLT.

Minister Says It Is Confined to Two Small Island Places.

Washington, Jan. 9.—The revolution in Hayti has been confined to two small island places and will no doubt soon be suppressed, according to a statement made by the Haytian minister to acting Secretary of State Moore yesterday. He said that quiet prevailed at Port au Prince and that President Oreste enjoyed the confidence of the country.

MILITANTS FIRE SCHOOL.

Burn St. Paul's Gymnasium and Laboratories at Cheltenham, Eng.

Cheltenham, England, Jan. 9.—A \$30,000 fire, supposedly set by "fascettes," destroyed the gymnasium and geological and chemical laboratories of St. Paul's Training school here yesterday.

The police found evidence to indicate that the blaze was the work of the suffragettes.

Maritime Association Meeting.

New York, Jan. 9.—The Maritime Association of the Port of New York has sent out invitations for its tenth annual dinner to be held at the Waldorf-Astoria Saturday evening, Jan. 31. Speakers and guests of international prominence are expected as well as a large attendance of those engaged in advancing the maritime interests of the port of New York.

WANT LIND FOR SENATE.

Democrats in Minnesota Urging Envoy as Candidate.

Minneapolis, Minn., Jan. 9.—Frank A. Day, prominent Democratic leader in Minnesota, said yesterday that John Lind, special envoy of President Wilson to Mexico, would be pressed into the race for United States senator against Senator Moses E. Clapp.

Ball Players Satisfied.

New York, Jan. 9.—The committee that represented the baseball players' fraternity before the national commission issued a statement expressing satisfaction at the granting of so large a proportion of their demands.

## ALBANIA A NIGHTMARE

Five Nations Are Now Striving for Its Possession

GREECE, SERBIA, ITALY, AUSTRIA AND TURKEY

Country Is Also Torn by Several Internal Factions

London, Jan. 9.—It is no wonder that the Prince of Wied hesitates to accept the throne of Albania—the nightmare of Europe. With five outside nations—Austria, Italy, Serbia, Greece and Turkey—striving for preponderance and torn by internal factions seeking power, uneasy would lie the head that wears its crown. Snatched from the hands of the conquerors of Turkey at the selfish behest of Austria, backed by Germany and Italy, who used England as a cat-paw, Albania was thrown back into the arena as a future bone for the wolves of Europe to gnaw. This act robbed Serbia and Greece of legitimate spoils of war and forced them to take territory that Bulgaria considered belonged to her. As Bulgaria made no effective protest to the Albanian project of Austria, although engaged to do so, Serbia and Greece felt justified in holding onto the land which their arms had conquered. This resulted in another war and the stripping of Bulgaria of any part of Macedonia and eventually of much of Thrace, which was retaken by the Turks. Now the latter are preparing to make war on Greece and are adding to the confusion in Albania.

NEAR END OF VACATION.

President Wilson Will Soon Return to Washington.

Pass Christian, Miss., Jan. 9.—Two weeks of seclusion were completed yesterday by President Wilson in this little village. It is the longest period of time he has passed away from Washington since he took office.

To the people of the string of towns and hamlets along the southern coast the president has been more or less of a puzzle.

He said he appreciated their desire to entertain him, but has declined their invitations to inspect their schools, visit places of historical interest, attend balls, theatres and those diverse social entertainments of which southern hospitality boasts at this season.

If he mingles with the people at all it will be at one popular reception just before he leaves—an event which Representative Harrison is trying to arrange for to-morrow at Gulfport.

To those who know the president his attitude on invitations is nothing new. Hundreds of requests have come to him in the last two years to attend banquets and make addresses at public functions, but his acceptances have been few. When Congress is in session he believes he ought to be at his desk at the White House and breaks the rule only to address a meeting of extraordinary importance.

The president's life in Pass Christian has been simple. Except for a daily game of golf he has been at home most of the time. He never has passed an evening away from the family circle. There have been no uniformed aides here, no ceremony, no policemen—none but the plainclothes secret service men.

The president came primarily for a vacation, but he has been able to put in many hours of uninterrupted work. He has done more work here in the last few days than he often has accomplished in two weeks at Washington. He has caught up with neglected details in his study of subjects thrust aside in the maelstrom of the tariff and currency agitation and he will go back to the capital with his mind made up on many subjects of prime importance.

A denial of the report that two Mexicans came here with John Lind on the scout cruiser Chester was yesterday authorized.

ARMY OFFICERS MUST BE MUM.

Cannot Discuss Any Debatable Matter in Public.

Washington, Jan. 9.—Army officers will not be permitted to discuss publicly army matters of a debatable nature.

The new regulations are to follow an exchange of memoranda between Secretary Garrison and Major General Wood in regard to articles furnished the press by Arthur Dunn, a writer in the employ of the infantry association. Some articles referred to the Mexican situation.

## SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's A Simple Recipe That Anybody Can Apply With A Hair Brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 20 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair. It is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant.—Adv.

## ECZEMA ALMOST COVERED BODY

Commenced with Little Pimples. Itched and Burned So Scratched and Made Sores. Cross and Fretful. Could Not Sleep. Cuticura Soap and Ointment Cured.

7 Hartwell St., Southbridge, Mass.—"Our son commenced with little pimples all over his body. They said it was eczema. The pimples looked like small insect bites and almost covered his body. They came to a head from which water would run. They itched and burned so badly that my son scratched them and made sores. His clothing irritated the eczema and he was cross and fretful. He could not sleep nights and wept day and say they burned and itched all the time."

"I tried — but it did not relieve him, and some — but it seemed to make him worse. I then used Cuticura Soap and Ointment and the first night I used them he seemed to be so relieved he slept a little. I first washed the affected parts with Cuticura Soap and then applied Cuticura Ointment twice daily. At the end of the first week he was much better and at the end of the second week he was completely cured. Every mark was gone." (Signed) Mrs. W. B. Potter, Nov. 12, 1912.

For treating poor complexions, red, rough hands, and dry, thin and falling hair, Cuticura Soap and Cuticura Ointment have been the world's favorites for more than a generation. A single set is often sufficient. Sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

## IN THE FIELD OF SPORTS

F. M. Mahard, quarterback of the Norwich university football eleven, has expressed his opinion in the controversy over the death of V. S. Belyea in the Holy Cross game last fall. He says: "I played quarterback for Norwich in that game and was not more than two yards behind Belyea when he was tackled. Although I think that Holy Cross was unnecessarily rough all through the game, I do not think that it was rough work that was intentional that resulted in his death. He was tackled only enough to throw him. He pitched forward in much the same manner that a man would dive to tackle, with his head well down on his shoulders. At the same time he left his feet another Holy Cross man dove for him. Both men struck the ground at the same time, but Belyea's head was under him. The force of his fall was excessively bad, because he struck the ground and the other player struck him at the same time. As the rules are now I think it would happen in almost any game. If there were some rule to stop falling on a man after he is thrown such things would not happen."

The grand circuit committee on rules met at Cleveland this week to consider changes in the rules to be recommended to the stewards, who will be in session at Grand Rapids, Mich., January 13. The committee was composed of men prominently connected with the racing game. They said that one of the most important amendments that they are considering is one providing that horses which compete in three losing races may be dropped to a lower class. A draft of the proposed amendment will not be made public until after its submission to the stewards.

Both Norwich and the University of Vermont will appear upon the University of Maine football schedule next year. Norwich will pit their eleven against the Maine team at Orono on Oct. 10, replacing Rhode Island state. The University of Vermont will resume relations with Maine after a year's suspension. The game will be played at Manchester, N. H., on the week following the Norwich game, Oct. 17.

Charles Brickley, the star Harvard football player, will be a candidate for the Crimson baseball team. Brickley, although it is not generally known, is a baseball player of merit. He caught for his freshman team in 1912. He will try for the backstop position left vacant by the graduation of Captain Young. Last spring Brickley confined himself to short-punting and track work and did not try for the varsity team. His chances are good for making the team.

Lacania defeated Concord in basketball at Lacania, N. H., on Tuesday night by the score of 30 to 28. Finn, the Hyde Park star, played with the Lacania team again.

The University of Pennsylvania is expected to win the next intercollegiate track meet at Philadelphia. The university, although minus the services of Mike Murphy, has an excellent coterie of athletes, who seem a strong enough aggregation to land the honors. Captain McCurdy, Lippincott, Patterson, Madera, Meredith, Kelley, Simpson, Carter, Harris, Rowley and Cross are the hope of the Red and Blue.

Frank Chance, who is passing the winter at his orange grove in California, has gained 20 pounds in weight since he quit baseball last fall. The Highlanders' managers will have his men at Hot Springs by Feb. 5 for spring training.

GENUINE ENAMELED TIE CLASP FREE WITH EGYPTIENNE STRAIGHTS

A tie clasp is one of the important little articles that every well dressed man appreciates. The tie is kept in trim, even position by a tie clasp so that it always looks crisp and snappy. This free tie clasp—which the American Tobacco company is giving away with each package of Egyptian Straight—made of genuine enamel over gold-finished metal—is an attractive, as well as a serviceable piece of jewelry. Only one tie clasp will be given to a customer, and as the supply is limited, "first come, first served."

Egyptienne Straights have made a phenomenal success. They are an absolutely pure Turkish cigarette, made solely of Turkish tobacco. They have made such a hit with the men who prefer a straight Turkish cigarette that they are now the largest selling straight Turkish cigarette in the world. They sell for only ten cents a pack; and they are growing faster in popularity than all other Turkish brands combined.—Adv.

The forty-five inch Chesterfield Overcoat shown here is the most popular Overcoat on the street. Very stylish lines; conservative but dressy.

The Sack Suit is the regular three-button model with two to button; and soft roll front.

## MOYER BEFORE GRAND JURY.

Gives Miners' Version of the Deportation of Their President.

Houghton, Jan. 9.—President Moyer of the Miners' Federation and Auditor Tanner told the grand jury yesterday their versions of the deportation of Moyer.

Both were closely guarded by sheriffs. Counsel Hilton met the party in a hotel and held a conference. Victor Berger, the Milwaukee congressman, is here as a member of the Socialist party committee and was admitted to the room after a considerable wait.

Gov. Ferris did not meet Moyer. So far as seeking information is concerned Gov. Ferris has completed his mission. He promises to use his persuasive powers toward settlement.

Chief interest centered to-day in the testimony of the copper mine operators that union labor is such a not repugnant to them but they made it plain the Miners' Federation could hope for no consideration from the companies.

The Indians and Notre Dame will meet next fall at Chicago. The game will probably be a post-season game. The game will prove to be a great attraction for the middle West.

## Sure Indications of Lung Trouble

Among the indications of threatened lung trouble are a continued cough, fever and night sweats. A change of climate often helps, but it seems that something more is needed to stop the cough and arrest the progress of disease. Eckman's Alternative, after many years of use, is known to be most beneficial in bringing about relief in many cases complete recoveries. Investigate this case.

"Gentlemen: I had a terrible cough, night sweats and pleurisy in my lungs. A man who heard me coughing advised me to take your Alternative. I paid no attention to him then. I got so bad I did, and when I got there I steadily grew worse. Then I remembered what had been told me about your medicine. I began taking it, with no faith whatever, but before I had taken three bottles, I could eat anything. Fever and night-sweats stopped and for over a year I have been well and in better health than I ever was." W. F. BOMAR, (Admavit.)

Eckman's Alternative has been proven by many years' test to be most efficacious in such cases as Croup, Whooping Cough, Bronchitis, Bronchial Asthma, Stomach Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries and write to Eckman's Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

## FORD WILL GIVE HIS WEALTH AWAY

But Not Like Andrew Carnegie—Works Only to Be the Beneficiaries.

Detroit, Jan. 9.—Henry Ford declares he, like Andrew Carnegie, wishes to die poor and to do all the good he can with his money while he lives. He differs radically from the ironmaster, however, as to methods. He does not believe in establishing libraries.

"Talented men use the libraries," he said. "You never see a laborer in them. Talented men can help themselves. I wish to help the man who cannot help himself."

"Why should I want to leave a big estate?" he asked. "Why I have no one to leave it to. I have only one son and he is a worker, well able to take care of himself."

"I believe in doing all the good that one can do for the people that are deserving. And the world has lots of them who are deserving. The thing is to find them."

"It is the man without talent, good, hard-working men, who have only their brawn and muscle to depend upon in getting a livelihood for themselves and families that should come in for consideration. They get little enough of it usually. They work hard and loyally for their \$1.50 or \$2 a day, and that is about all they ever get a chance to make."

"It is men like that who will get the most out of our profit-sharing here in the Ford factory, and it will do them the most good, for it will lift them and their families up to a better standard of living."

In response to remarks of the dubious, who think the plan too Utopian to succeed, he said: "It can be done. If there are any needed changes in our plans they will be made. The whole thing will be worked out as we have arranged, and the men will get the benefit."

Police Accused in Hold-up. Cleveland, Jan. 9.—As the aftermath of the robbery epidemic here Chief of Police Rowe has started an investigation of charges that two patrolmen played a part in a St. Clair avenue hold-up.

Only One "BROMO QUININE." That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a cold in one day, cures grip in two days. 25c.—Adv.

## SLIGHT, THIN AND NERVOUS.

Dr. Smith Describes Imperfect Type of Woman.

Battle Creek, Mich., Jan. 9.—An imperfect type of woman is that represented by the very slight, thin-chested, nervous woman at present favored by fashion, said Dr. Richard Smith yesterday.

He asserted the same defects have been present among women for many generations. The perfect type, he said, is that represented by individuals, compact in build, deep chested with steady nerves and fleshy enough for anatomical angles to be rounded out.

## OLD-TIME COLD CURE—DRINK TEA!

Get a small package of Hamburg Brest Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, pour a cup of boiling water upon it, pour through a sieve and drink a tea-cup full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once. It is inexpensive and entirely vegetable, therefore, harmless.—Adv.
